BUREAU OF ENFORCEMENT
Market Conduct Division

One of the Department's responsibilities is to evaluate compliance of insurers with insurance statutes and regulations relating to market conduct practices of insurers and their dealings with policyholders and claimants in Pennsylvania.

There are five key market conduct areas: (1) underwriting; (2) rating; (3) claims; (4) advertising; and (5) licensing. The Market Conduct Division exercises responsibilities in these areas by detecting problems and requiring action be taken to correct any problems identified.

There are presently two major areas of responsibility identified for the Market Conduct Division. First, the Division is responsible for conducting comprehensive on-site examinations of insurance company's records, files, and business practices to determine compliance with Pennsylvania statutes and regulations. This involves on-site examination of the records of companies currently writing business in the Commonwealth. All lines of business are examined utilizing acceptable examination methods and statistical random sampling techniques.

The second area of responsibility involves market conduct oversight reviews which involve monitoring and analysis of the insurance market to identify company trends and non-compliance. This is accomplished by identifying specific market related issues and conducting detailed reviews. These reviews are conducted by Division staff in the Department's offices.
